

ULTIMATE SERIES

Bottleless Water Coolers with Filtration

Optional 2, and 3-Stage Filtration
or **Reverse Osmosis System**

Optional Ultraviolet Sterilizer

Leak detect with auto shutoff

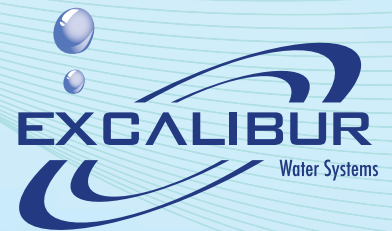

When performance, quality and value matter.
Choose Excalibur Water.

Ultimate Series Bottleless Water Coolers with Filtration

The Ultimate Series answers the need for a family of modern, efficient water coolers. All floor-standing models share a common frame design yet are configured with feature-sets to meet varying customer requirements. Choose from electrical or electronic controls, LCD display, advanced functions such as energy-saver, HOT boost, and more.

Water made better by design is more than a tagline ... it is how we do business. Excalibur integrates the concept of sustainability in all areas of business. From the products we design and sell to the impact of our processes and products on the environment, we implement our commitment daily.

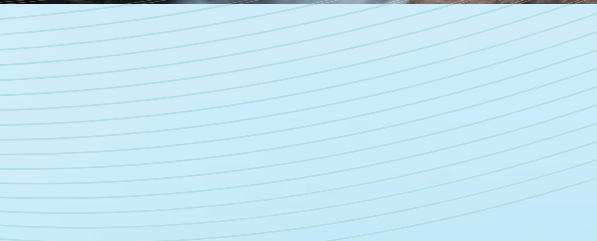

All floor-standing models are designed with a large filtration compartment which provides space for either Filtration or Reverse Osmosis. In addition, a 3-gallon internal tank can be used for either ambient or RO water storage. Removable service panels provide easy access to common maintenance areas, and all models have a convenient built in cup dispenser.

Using an innovative free-standing frame design, outer panels can be easily replaced ensuring that your cooler retains that new look. All critical surfaces are coated with an antimicrobial agent while an optional Ultraviolet Sterilizer System destroys waterborne bacteria and viruses.

ULTIMATE SERIES BOTTLELESS WATER COOLERS SPECIFICATIONS

CABINET	Style	Free Standing
	Removable Side Panels	S
	Cabinet Material	Metal
	Cabinet Colour Options	Black or White
WATER DISPENSER	Selections	Cook & Cold / Hot & Cold
	Storage Tank Material	Stainless Steel
HOT	Temperature Range, °F	140-185
	Hot Boost Function	N
	Storage Capacity, Gallon	0.5
	Heating Capacity, GPH	2
COLD	Temperature Range, °F	37-46
	Storage Capacity, GPH	1
	Chilling Capacity, GPH	1.5
	3 Gallon Tank for RO System	0
FILTRATION SYSTEM	# Stages, typical	2 OR 3
	Electronic Keypad	S
	Status Indicators	LED
	Adjustable Temperature Range	N
	Unit ON / OFF Switch	S
	Energy Saving Mode	N
	Filter Replacement Indicator	N
	Digital Clock	N
SAFETY FEATURES	Antimicrobial Coating	S
	Child-proof Hot Water Dispenser	S
	Leak Detection with Automatic Shutoff	S
	UV In-Line Sterilization	O
ELECTRICAL	Operating Voltage, VAC / HZ	120/60
	Power Consumption, W	600
DIMENSIONS, INCHES		45 x 15.5 x 14.5
WEIGHT, LBS		65
APPROVALS		ETL, CE, Energy Star
		ANSI/NSF 61
WARRANTY		2 YRS
(warranty on water cooler and filtration systems excluding filter elements)

REPLACEMENT CARTRIDGES, MEMBRANES AND ULTRAVIOLET STERILIZERS

HOLLOW FIBRE MEMBRANE

**Part Number:
SMF HFTL**

SEDIMENT FILTER

**Part Number:
SMF PP1005TL**

REVERSE OSMOSIS MEMBRANE

**Part Number:
RO TWRM35**

**CARBON BLOCK – CTO WITH
LEAD & CYST**

**Part Number:
CBC1005TL**

CARBON BLOCK CTO

**Part Number:
RO TLROC**

ULTRAVIOLET STERILIZER

**Part Number:
UVS 1GPM**

SANITIZATION STERILIZER

**Part Number:
SMF TLSAN**

ULTRAVIOLET LAMP

**Part Number:
UVS C080**

EASY ACCESS FOR FILTER REPLACEMENT AND MAINTENANCE!

ULTIMATE SERIES BOTTLELESS WATER COOLERS

2 and 3 STAGE FILTRATION, and 3 STAGE REVERSE OSMOSIS SYSTEMS

3-STAGE REVERSE OSMOSIS SYSTEM

3 Stage Reverse Osmosis System
Unique High Pressure System for
Premium
Water Quality

System Benefits:

- ◆ 3-Stage Reverse Osmosis System
- ◆ 35 gallons per day
- ◆ 3 year warranty (consumables not included)
- ◆ Easy & convenient twist-lock sumps
- ◆ Quiet & fast auto shut-off built into head
- ◆ Quick connection replacement cartridges/membranes for easy removal and replacement

- ◆ Reduces 97% of Total Dissolved Solids – as small as 0.01 microns
- ◆ 3 gallon tank
- ◆ Improves taste & clarity

Tested and Certified by the Water Quality Association against NSF/ANSI Standard 58 for the reduction of Cysts, Lead, Pentavalent Arsenic, Nitrites/Nitrates, Chromium III, Chromium VI, Selenium, Cadmium and Total Dissolved Solids (TDS) and against NSF/ANSI Standard 42 for the aesthetic reduction of Chlorine, Taste & Odour and Particulates.

2-STAGE FILTRATION SYSTEM

System Benefits:

- ◆ Certified for reduction of chlorine taste and odour
- ◆ Improves taste and reduces odours
- ◆ Increases clarity of your drinking water
- ◆ Helps to protect small appliances that use filtered water
- ◆ Lasts up to 12 months dependent upon filter system, water quality and amount of water filtered
- ◆ 2,500 gallon capacity
- ◆ Certified for reduction of cysts, atrazine, lindane and lead
- ◆ 2 stages to optimize filter performance and life

NSF/ANSI Standards. Tested and Certified by Water Quality Association (WQA) against NSF/ANSI Standard 53 for atrazine, cysts, lead and lindane reduction, and against NSF/ANSI Standard 42 for aesthetic reduction of Chlorine, Particulates, Taste & Odour

ULTIMATE SERIES BOTTLELESS WATER COOLERS 2 and 3 STAGE FILTRATION, and 3 STAGE REVERSE OSMOSIS SYSTEMS

3-STAGE FILTRATION SYSTEM

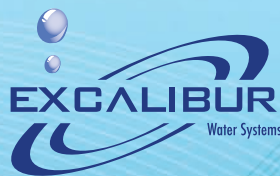

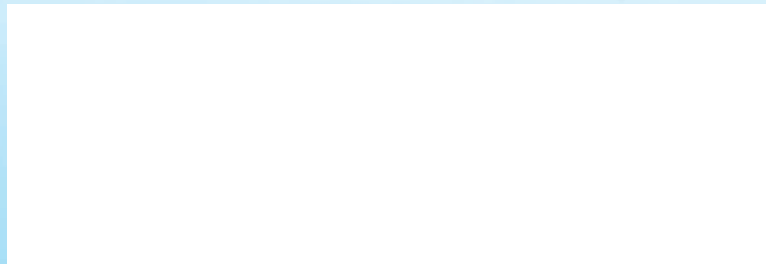

All the features of the Dual Stage
PLUS:

- ◆ No tanks or drains required to install
- ◆ High flow rate – 1 gpm – twice the flow rate of typical filtration systems
- ◆ Certified for reduction of chlorine, taste & odour
- ◆ Quick replacement cartridges/membranes for easy removal & replacement
- ◆ Microbiological Filtration
- ◆ Removes 99.99% viruses, removes 99.9999% bacteria, removes 99.99% cysts
- ◆ Improves taste & clarity
- ◆ Reduces lead, lindane, microbial cysts and atrazine
- ◆ Lasts up to 12 months dependent upon filter system, water quality and amount of water filtered
- ◆ 1,000 gallon capacity

NSF/ANSI Standards. Tested and Certified by Water Quality Association (WQA) against NSF/ANSI Standard 53 for atrazine, cysts, lead and lindane reduction. Tested and Certified by (WQA) against NSF/ANSI Standard 42 for aesthetic reduction of Chlorine, Particulates, Taste & Odour. Tested and certified by (WQA) to EPA Standard 231 as a Purifier.
